ASK NEW BUILDING

SCHOOL BOARD TO SUBMIT LEVY FOR COLORED SCHOOL.

CREATE FUND OF \$5,000

Increase in Assessment Would Be Light—Colored Residents Petition For Old Structure to be Leased.

The school last night decided, after a meeting of the voters of Maryville, April 1, a proposition for a levy of 25 cents on the \$100 valuation for the purpose of building a new school building for the Douglas school. It will be necessary to have a two-thirds majority and the levy will provide a fund of \$5,000.

The board proposes to reduce the sinking and interest funds on the bonds of the Washington school building 20 cents—15 cents off the sinking fund and 5 cents off the interest fund, making a levy for this purpose of 6 cents for sinking and 5 cents for interest fund. This levy will then be 15 cents and in addition to the proposed levy of 25 cents for the Douglas school building, the total levy would be 40 cents, just an increase of 5 cents over what it is at present.

Of the original issue of \$75,000 for the Washington school building, \$13,000 is outstanding and runs until 1928. None of these bonds are due until 1925. The board has at present \$2,000 in this fund.

It will be necessary to have a fund of \$5,000 to build the new school building. It is planned to erect a brick structure about 25 x 40 with two rooms and a good basement.

The following resolutions were presented to the board:

Maryville, Mo., Mar. 10, 1919. Colored citizens of Maryville met in mass meeting Monday evening, March 10, at the A. M. E. church on South Vine street and elected Rev. L. P. Bryant as chairman and Ernest O. Boone, Jr., as secretary to consider the building of a new school for the colored children.

Whereas, The Douglas school building was partially destroyed by fire on Saturday, March 8;

Whereas, The citizens deem it unwise to and the building not worth repairing;

Therefore be it resolved, That we, the citizens in mass meeting assembled, petition the Board of Education to place upon the ballot in the coming school election an increase in taxation to build a new school building for the colored children of this city.

Respectfully submitted, COLORED CITIZENS. L. P. Bryant, Chairman. Ernest O. Boone, Jr., Secretary.

There are about twenty-five pupils in the Douglass school. The old building was built about forty-three years ago. The voters of the district should vote for the present levy for a suitable building for the colored children.

Little French Girl Thinks Americans Very Interesting—Writes Letter To Her God-Mother Here.

Mrs. Mary Kost Riffle, living south of the city, has received the following letter from little Louise Darmony, a nine year old French war orphan whom Mrs. Riffle has adopted. The letter was written by the little girl and has been translated from the French by Miss Floyd of the Normal faculty.

Orleans, Feb. 9. My Dear Godmother: It has been some little time since you have heard from me; I received the birthday card which you sent me and it gave me much pleasure. I am in very good health now as well as Mama. We received your gift of forty-five francs the last of December and mama thanks you very much for it. The weather is very severe just now; it is very cold also. I have not been to mass; I remain near the fire with mama, but I do not miss school for I am making good progress just now; I am fourth out of forty pupils.

There are still a great many Americans in our country; there were some who were friends of one of our neighbors and when they came I enjoyed talking to them. There were four of them—Jack, John, Dick, Scott. They were interesting to talk to; they have returned to their homes in America.

Dear Godmother, I have never spoken to you of your picture in which you appear very well to me, as well as your daughter; you have not aged much in spite of your seventy years. I have no more for you. Mama joins me in sending you best wishes and in asking you to write often, for that gives me much pleasure. I close in embracing you tenderly, as well as your daughter. Your little daughter, who thinks of you.

ASK FOR DECISION

RED CROSS DIVISION WANTS TO KNOW ABOUT PUBLIC NURSE

BOARD CALLED TO MEET

A Competent Nurse Is Now Available if Chapter Desires to Install Plan, Director Fairbank Writes.

With a request from the Southwest Division of the Red Cross that the Nodaway county chapter arrive at a decision regarding the installation of a public health department, which would include the employment of a competent nurse, a meeting of the entire executive board has been called to meet on March 20 when final action will be taken.

In a letter just received from Alfred Fairbank, director of civilian relief, he states that with some eighty communities desiring to begin the work at once, the Southwest Division would like to know what Nodaway county will do, a nurse being available at this time if it is decided to install the department. In his letter to G. B. Roseberry, chapter chairman Mr. Fairbank says:

"I remember Mrs. Ethel Parsons, Director of Bureau of Public Nursing, who visited you some time ago stating that she had never met anywhere such splendid co-operation among public school officials, hospital authorities, and the community at large as she had in Maryville. They were most responsive to her suggestions she made relative to the establishment of that service. She found them so well informed and working so intelligently that she was especially keen on the appointment of an especially fine type of women for the community."

This plan has been adopted in many eastern states and is a result of the selective service examinations when thousands of men were found unfit for military service through physical defects that might have been corrected in early childhood. Under the Red Cross nurse, and with the co-operation of local school and civil authorities, children would be examined and parents advised of physical defects so that medical care might be given or such other treatment administered as would restore the child to health. The Red Cross nurse would also be available to handle and direct nursing in case of epidemics.

The Red Cross is a pioneer in this movement to build up and restore to health children physically defective and to safeguard the health of the public. The plan contemplates employment of a nurse for one year, at the end of which period, the local or county authorities are at liberty to continue it in operation.

A JURY PANEL HARD TO FILL. Spring Farm Work Brings Excuses From Many of the Men Drawn by County Court to Serve.

The spring court term finds the sheriff's office with trouble aplenty on its hands in summoning the jury list drawn by the county court. It is not an unusual situation for it occurs regularly with every spring term of the circuit court and in lesser degree with the fall term. Men are busy with farm work and dislike to be called to town to spend two or three weeks sitting on juries when spring pigs need attention and plowing and seeding has to be done.

Judge John M. Dawson was looking over the jury list for the April term this morning, noted the names of those who would likely be asked to be excused. "I believe a farmer who is tied up with work has a reasonable excuse for not serving," he told the sheriff, "and you'll have to pick others to fill out the panel."

Those who have been unable to understand why certain men are found regularly on circuit court juries have the explanation in the foregoing. With half the panel of veniremen excused, it becomes necessary for the sheriff to summon others, consequently the "reliable juror" is considerably in favor with the sheriff's office.

Since the invitation was extended to Reed the senate by a vote of 26 to 5 has endorsed President Wilson's stand for the League of Nations.

KEEP DEPUTY BUSY

INCOME TAX PAYERS HURRY TO TURN IN REPORTS

BANKS HAVE BEEN HELP

Ray H. Williams Says Financial Institutions Have Taken Much of Burden From Government.

Ray H. Williams, deputy internal revenue collector, who is here aiding taxpayers in making out their income tax reports will leave this evening after two days of hard work. Mr. Williams has had his time fully occupied during the two days with intermission only for meals. Several persons were waiting for him at his hotel this morning when he came down to breakfast.

Speaking of the large amount of detail work in connection with making out income tax reports, Mr. Williams said this morning that this year the banks had taken a large part of the burden off from the government in aiding their patrons in making out reports. "It would seem," he said, "that one or more of the banks here might find it to their advantage to employ a tax expert seeing that they do such a large amount of 'personal service' work. This income tax work takes time and I have seen as much as five hours devoted to one bank customer by bank officials in helping him with his report."

"The fact of the matter is," continued Mr. Williams, "the big banks and corporations are employing the best men to be had, offering them more than the government is paying. That is the reason the government is unable to secure enough men to look after the income tax work."

A matter for special comment by Mr. Williams was the large number of contributions to the Red Cross by Nodaway county residents. "You certainly supported the Red Cross in fine shape," he remarked as he thumbed through a pile of reports. Mr. Williams said he had found residents of the country districts had given more liberally in proportion to war activities than the people in the cities.

RED CROSS DIVISION WANTS TO KNOW ABOUT PUBLIC NURSE

A Competent Nurse Is Now Available if Chapter Desires to Install Plan, Director Fairbank Writes.

With a request from the Southwest Division of the Red Cross that the Nodaway county chapter arrive at a decision regarding the installation of a public health department, which would include the employment of a competent nurse, a meeting of the entire executive board has been called to meet on March 20 when final action will be taken.

Cooper Gooden is one of our prosperous farmers living near Lanning's Mill. He has 188 acres of land, with 90 acres under fence. He has a good substantial residence, a nice large yard around which he is putting a nice fence. He has out a good young orchard which bore some fruit last season. He raised 20 acres of good corn and has 10 acres of winter wheat in the ground. He has of stock, 3 horses, 40 hogs and 7 head of cattle. Mr. Gooden is a miller by trade and operated Lanning's mill successfully for some thirteen years. He is a native of Delaware and has been here fourteen years.

I suffered in this way for five or six years and was treated by a physician and took different remedies without benefit. Lydia E. FRECKLES

March Brings Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle. Fortunately for her peace of mind, Othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength Othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.—Adv.

A Brief Statement About Hudson Leadership

Automobile History That Motor Car Buyers Should Remember

Note these facts which prove Hudson Super-Six leadership. They are convincing reasons for its preference among all fine cars.

An exclusive type motor which so minimizes vibration that automobile endurance has been increased beyond previously known limits. That was proved on the speedway, in hill climbs, and in transcontinental touring. Official records accord the Hudson Super-Six first honor in nearly all worthwhile events.

For three years the Hudson Super-Six has led all fine cars in number of sales.

Its body types forecast the trend of motor car design. Note how cars at this year's auto shows reveal the influence of last year's Hudsons. Look for the new square lines of present Hudson models to be the generally accepted standard of the cars next fall.

Then think of the service your neighbor has had from his Hudson Super-Six. You must know many who own Hudsons. More than 60,000 are in use.

And don't forget that thousands have been disappointed each spring because there were not enough Hudsons to meet the demand. Open car production is off while closed cars to meet present demands are coming through. A few dealers have some open cars. Get one now, if you can, if that is the type you prefer. Otherwise you may have to wait longer than you want to.

MRS. BROWN A WELL WOMAN ONCE MORE

Was Confined to Her Bed And Chair For Over Two Years Before Taking Tanlac

"Some strange things happen in this world and the change Tanlac has brought about in my life's condition is one of them," said J. L. Brown, a resident of College Park, Ga.

"For over two years," he continued, "my wife had so much trouble with her stomach that she could hardly take any nourishment at all but a milk diet, and she fell off till she was little more than a living skeleton. She got little rest or sleep at night, had no energy at all and was so weak and rundown that most of her time was spent in bed or in her chair. Her skin was sallow and unhealthy looking and she didn't seem to take interest in anything."

"In fact she was about as bad off as she could be to be alive when she started taking Tanlac, and just a few bottles of this wonderful medicine have made her a well woman once more. She now eats anything she wants, sleeps like a child, has gained twenty pounds and is able to do all her housework as well as she ever did."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley.—Adv.

Ciccolini Tests the \$3,000,000 Phonograph in Presence of Chicago Opera Stars

As Alfredo in Traviata, the initial offering of the Chicago Opera Association this season, Ciccolini scored a distinct success. Next day he dropped into a music studio accompanied by his friends, Carolina and Virgilio Lazzari, the famous contralto and basso of the organization. They started playing some of their own Recreations on the New Edison. As the strains of Marechaise, the delightful Neapolitan street song soared through the room the distinguished tenor joined in, as pictured above, singing in unison with his own Recreation.

"Bravo!" shouted Virgilio Lazzari. "A duet. I swear you can't tell the two apart. I'll try to."

He shut his eyes. Gradually Ciccolini sang more softly. Finally he ceased.

"Why don't you stop?" inquired the listener a moment later, "so that I can tell the difference!"

Ciccolini and Signorina Lazzari burst into laughter. Lazzari, the great basso, with ears attuned to the subtlest variations of the human voice; even he had been unable to say when it was Ciccolini he heard and when his Recreation.

Edison tone tests in which the artist sang in direct comparison with his own Recreations have been held before audiences totalling more than two million people. More than thirty great stars, both vocalists and instrumentalists, have conducted them; more than five hundred newspapers critics have reported them favorably. You may read their verdicts in the booklet "What the Critics Say." Out of this vast throng not one person has been found who could distinguish artist from instrument.

It Solves The Farm Help Problem

This is the time of year to tractorize your farm and there is no one who realizes the importance of reducing cost of production more than YOU Mr. Farmer.

The Moline Universal Tractor is handled by one man, no matter what implement you desire to use on your farm.

It does the work of eight head of sturdy, strong horses and requires but one man to control both implement and tractor.

Cost less to operate than three horses and eats nothing when not in operation.

There can be no better authority for the above statements than the users of Moline Universal Tractors.

Here is what a user states:

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

NEW TREATMENT THAT KNOCKS RHEUMATISM

75c BOX FREE TO ANY SUFFERER
Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally. Wood Bldg., Syracuse, N. Y. I can send only one Free Package to an address." 1016 B

Three Good Sales.

The public sales of C. W. Barrett, which was held February 22, and Marvin E. Keiffer held March 8 were two of the good sales of the season.

Both sales were very well attended and the prices paid for the property were, for the most part, very satisfactory to those disposing of the property.

At the Barrett sale gilts brought \$34 per ton, oats straw \$20 per ton,

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache, or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, hot water before meals, and obtain Anuric tablets, double strength, for 60 days, at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anuric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than Biblia, for it will dissolve uric acid as hot tea dissolves sugar.

\$34 per toon, oats straw \$20 per ton, and a cow and calf brought \$161.

At the Keiffer sale small shoats sold around 25 cents per pound, one mare brought \$210 and a Jersey cow went under the hammer at \$115 and most of the rest of the stuff offered brought more than the estimates made before the day of the sale.

The George Porter sale held yesterday was very successful. Cattle especially went high, calves weighing around 500, bringing \$64 per head and one cow sold for \$132.50.—Skidmore News.

ASK NEW BUILDING

SCHOOL BOARD TO SUBMIT LEVY FOR COLORED SCHOOL.

CREATE FUND OF \$5,000

Increase in Assessment Would Be Light—Colored Residents Petition For Old Structure to be Replaced.

The school board last night decided to submit to the voters of Maryville a proposition for a levy of 25 cents on the \$100 valuation for the purpose of building a new school building for the Douglas school. It will be necessary to have a two-thirds majority and the levy will provide a fund of \$5,000.

The board proposes to reduce the sinking and interest funds on the bonds of the Washington school building 20 cents—15 cents off the sinking fund and 5 cents off the interest fund, making a levy for this purpose of 6 cents for sinking and 5 cents for interest fund. This levy will then be 15 cents and in addition to the proposed levy of 25 cents for the Douglas school building, the total levy would be 40 cents, just an increase of 5 cents over what it is at present.

Of the original issue of \$75,000 for the Washington school building, \$13,000 is outstanding and runs until 1928. None of these bonds are due until 1925. The board has at present \$2,000 in this fund.

It will be necessary to have a fund of \$5,000 to build the new school building. It is planned to erect a brick structure about 25 x 40 with two rooms and a good basement.

The following resolutions were presented to the board:

Maryville, Mo., Mar. 10, 1919.
Colored citizens of Maryville met in mass meeting Monday evening, March 10, at the A. M. E. church on South Vine street and elected Rev. L. P. Bryant as chairman and Ernest O. Boone, Jr., as secretary to consider the building of a new school for the colored children.

Whereas, The Douglas school building was partially destroyed by fire on Saturday, March 8;

Whereas, The citizens deem it unwise to and the building not worth repairing;

Therefore be it resolved, That we, the citizens in mass meeting assembled, petition the Board of Education to place upon the ballot in the coming school election an increase in taxation to build a new school building for the colored children of this city.

Respectfully submitted,
COLORED CITIZENS.
L. P. Bryant, Chairman.

Ernest O. Boone, Jr., Secretary.
There are about twenty-five pupils in the Douglass school. The old building was built about forty-three years ago. The voters of the district should vote for the present levy for a suitable building for the colored children.

Little French Girl Thinks Americans Very Interesting—Writes Letter To Her God-Mother Here.

Mrs. Mary Kost Riffle, living south of the city, has received the following letter from little Louise Darmony, a nine year old French war orphan whom Mrs. Riffle has adopted. The letter was written by the little girl and has been translated from the French by Miss Floyd of the Normal faculty.

Orleans, Feb. 9.

My Dear Godmother: It has been some little time since you have heard from me; I received the birthday card which you sent me and it gave me much pleasure. I am in very good health now as well as Mama. We received your gift of forty-five francs the last of December and mama thanks you very much for it. The weather is very severe just now; it is very cold also. I have not been to mass; I remain near the fire with mama, but I do not miss school for I am making good progress just now; I am fourth out of forty pupils.

There are still a great many Americans in our country; there were some who were friends of one of our neighbors and when they came I enjoyed talking to them. There were four of them—Jack, John, Dick, Scott. They were interesting to talk to; they have returned to their homes in America.

Dear Godmother, I have never spoken to you of your picture in which you appear very well to me, as well as your daughter; you have not aged much in spite of your seventy years.

I have no more for you. Mama joins me in sending you best wishes and in asking you to write often, for that gives me much pleasure. I close in embracing you tenderly, as well as your daughter. Your little daughter, who thinks of you.

ASK FOR DECISION

RED CROSS DIVISION WANTS TO KNOW ABOUT PUBLIC NURSE

BOARD CALLED TO MEET

A Competent Nurse Is Now Available If Chapter Desires to Install Plan, Director Fairbank Writes.

With a request from the Southwest Division of the Red Cross that the Nodaway county chapter arrive at a decision regarding the installation of a public health department, which would include the employment of a competent nurse, a meeting of the entire executive board has been called to meet on March 20 when final action will be taken.

In a letter just received from Alfred Fairbank, director of civilian relief, he states that with some eighty communities desiring to begin the work at once, the Southwestern Division would like to know what Nodaway county will do, a nurse being available at this time if it is decided to install the department. In his letter to G. B. Roseberry, chapter chairman Mr. Fairbank says:

"I remember Mrs. Ethel Parsons, Director of Bureau of Public Nursing, who visited you some time ago stating that she had never met anywhere such splendid co-operation among public school officials, hospital authorities, and the community at large as she had in Maryville. They were most responsive to her suggestions she made relative to the establishment of that service. She found them so well informed and working so intelligently that she was especially keen on the appointment of an especially fine type of women for the community."

This plan has been adopted in many eastern states and is a result of the selective service examinations when thousands of men were found unfit for military service through physical defects that might have been corrected in early childhood. Under the Red Cross nurse, and with the co-operation of local school and civil authorities, children would be examined and parents advised of physical defects so that medical care might be given or such other treatment administered as would restore the child to health. The Red Cross nurse would also be available to handle and direct nursing in case of epidemics.

The Red Cross is a pioneer in this movement to build up and restore to health children physically defective and to safeguard the health of the public. The plan contemplates employment of a nurse for one year, at the end of which period, the local or county authorities are at liberty to continue it in operation.

A JURY PANEL HARD TO FILL

Spring Farm Work Brings Excuses From Many of the Men Drawn by County Court to Serve.

The spring court term finds the sheriff's office with trouble aplenty on its hands in summoning the jury list drawn by the county court. It is not an unusual situation for it occurs regularly with every spring term of the circuit court and in lesser degree with the fall term. Men are busy with farm work and dislike to be called to town to spend two or three weeks sitting on juries when spring plows need attention and plowing and seeding has to be done.

Judge John M. Dawson was looking over the jury list for the April term this morning, noted the names of those who would likely be asked to be excused. "I believe a farmer who is tied up with work has a reasonable excuse for not serving," he told the sheriff, "and you'll have to pick others to fill out the panel."

Those who have been unable to understand why certain men are found regularly on circuit court juries have the explanation in the foregoing. With half the panel of veniremen excused, it becomes necessary for the sheriff to summon others, consequently the "reliable juror" is considerably in favor with the sheriff's office.

Since the invitation was extended to Reed the senate by a vote of 26 to 5 has endorsed President Wilson's stand for the League of Nations.

KEEP DEPUTY BUSY

INCOME TAX PAYERS HURRY TO TURN IN REPORTS

BANKS HAVE BEEN HELP

Ray H. Williams Says Financial Institutions Have Taken Much of Burden From Government.

Ray H. Williams, deputy internal revenue collector, who is here aiding taxpayers in making out their income tax reports will leave this evening after two days of hard work. Mr. Williams has had his time fully occupied during the two days with intermission only for meals. Several persons were waiting for him at his hotel this morning when he came down to breakfast.

Speaking of the large amount of detail work in connection with making out income tax reports, Mr. Williams said this morning that this year the banks had taken a large part of the burden off from the government in aiding their patrons in making out reports. "It would seem," he said, "that one or more of the banks here might find it to their advantage to employ a tax expert seeing that they do such a large amount of 'personal service' work. This income tax work takes time and I have seen as much as five hours devoted to one bank customer by bank officials in helping him with his report."

"The fact of the matter is," continued Mr. Williams, "the big banks and corporations are employing the best men to be had, offering them more than the government is paying. That is the reason the government is unable to secure enough men to look after the income tax work."

A matter for special comment by Mr. Williams was the large number of contributions to the Red Cross by Nodaway county residents. "You certainly supported the Red Cross in fine shape," he remarked as he thumbed through a pile of reports. Mr. Williams said he had found residents of the country districts had given more liberally in proportion to war activities than the people in the cities.

40 Years Ago Today

The whipping post bill has failed of passage in the lower house of the Missouri legislature by a vote of forty-four to twenty-five.

Cooper Gooden is one of our prosperous farmers living near Lanning's Mill. He has 188 acres of land, with 90 acres under fence. He has a good substantial residence, a nice large yard around which he is putting a nice fence. He has out a good young orchard which bore some fruit last season. He raised 20 acres of good corn and has 10 acres of winter wheat in the ground. He has of stock, 3 horses, 40 hogs and 7 head of cattle. Mr. Gooden is a miller by trade and operated Lanning's mill successfully for some thirteen years. He is a native of Delaware and has been here fourteen years.

The contractors are pushing work right along on the new road. The iron steed, we suppose, will come snorting along in due time.

The Barnard Times says that Matt Whitford has ten car loads of cattle that will average 1,500 pounds, and asks, can any of our neighboring counties beat them?

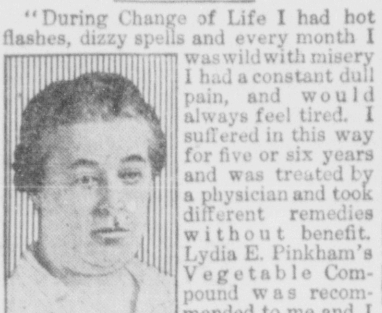

Elder Geo. C. Dew has closed his term as pastor of the Christian church of this city and will probably go to a new field of labor for the ensuing year.

Dr. W. M. Wallis, of Pickering, advertises in this issue a public sale at his place on Saturday, March 22, 1879, at which time he will offer for sale some horses, about twenty head of cows and heifers, some farming implements and various other articles.

Below we give the names of the 100 men who signed the bond guaranteeing to the Council Bluffs & St. Louis Railroad Co., the right of way and depot grounds in Polk township and Maryville. The list is arranged alphabetically and was prepared for us by Dr. H. E. Robinson: I. N. Albin, I. K. Alderman, Jas. E. Alexander, T. J. Alexander, C. A. Anthony, J. J. Armstrong, L. L. Bariteau, J. WOMEN OF MIDDLE AGE

How Lydia E. Pinkham's Vegetable Compound Relieves the Ailments of Change of Life.

"During Change of Life I had hot flashes, dizzy spells and every month I was wild with misery. I had a constant dull pain, and would always feel tired. I suffered in this way for five or six years and was treated by a physician and took different remedies without benefit. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took it, and I believe I would never have been well if it had not been for the Vegetable Compound and Lydia E. Pinkham's Sanative Wash. I am recommending your medicine to all women ailing as I was, for I think it will carry them safely through the Change of Life, and relieve the ailments that come at that period."—Mrs. ALEXIE C. NANGLE, Galatia, Ill.

Women who suffer from nervousness, "heat flashes," headache, dizziness, and "the blues," should try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and if complications exist write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in such cases is at your service.

FRECKLES

March Brings Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle. Fortunately for her peace of mind, Othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength Othine should remove them. Get an ounce from your druggist and banish the freckles. Money back if it fails.—Adv.

A Brief Statement About Hudson Leadership

Automobile History That Motor Car Buyers Should Remember

Note these facts which prove Hudson Super-Six leadership. They are convincing reasons for its preference among all fine cars.

An exclusive type motor which so minimizes vibration that automobile endurance has been increased beyond previously known limits. That was proved on the speedway, in hill climbs, and in transcontinental touring. Official records accord the Hudson Super-Six first honor in nearly all worthwhile events.

For three years the Hudson Super-Six has led all fine cars in number of sales.

Its body types forecast the trend of motor car design. Note how cars at this year's auto shows reveal the influence of last year's Hudsons. Look for the new square lines of present Hudson models to be the generally accepted standard of the cars next fall.

Then think of the service your neighbor has had from his Hudson Super-Six. You must know many who own Hudsons. More than 60,000 are in use.

And don't forget that thousands have been disappointed each spring because there were not enough Hudsons to meet the demand. Open car production is off while closed cars to meet present demands are coming through. A few dealers have some open cars. Get one now, if you can, if that is the type you prefer. Otherwise you may have to wait longer than you want to.

MRS. BROWN A WELL WOMAN ONCE MORE

Was Confined to Her Bed And Chair For Over Two Years Before Taking Tanlac

"Some strange things happen in this world and the change Tanlac has brought about in my life's condition is one of them," said J. L. Brown, a resident of College Park, Ga.

"For over two years," he continued, "my wife had so much trouble with her stomach that she could hardly take any nourishment at all but a milk diet, and she fell off till she was little more than a living skeleton. She got little rest or sleep at night, had no energy at all and was so weak and rundown that most of her time was spent in bed or in her chair. Her skin was sallow and unhealthy looking and she didn't seem to take interest in anything."

"In fact she was about as bad off as she could be to be alive when she started taking Tanlac, and just a few bottles of this wonderful medicine have made her a well woman once more. She now eats anything she wants, sleeps like a child, has gained twenty pounds and is able to do all her housework as well as she ever did."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley.—Adv.

MOLINE
UNIVERSAL TRACTOR
It Solves The Farm Help Problem

This is the time of year to tractorize your farm and there is no one who realizes the importance of reducing cost of production more than YOU Mr. Farmer.

The Moline Universal Tractor is handled by one man, no matter what implement you desire to use on your farm.

It does the work of eight head of sturdy, strong horses and requires but one man to control both implement and tractor.

Cost less to operate than three horses and eats nothing when not in operation.

There can be no better authority for the above statements than the users of Moline Universal Tractors.

Here is what a user states:

Pickering, Mo., March 5, 1919
"The Moline Universal Tractor does all that its manufacturers say it will do and more." We take pleasure in recommending it to the farmers of Nodaway County.

Ciccolini Tests the \$3,000,000 Phonograph in Presence of Chicago Opera Stars

As Alfredo in Traviata; the initial offering of the Chicago Opera Association this season, Ciccolini scored a distinct success. Next day he dropped into a music studio accompanied by his friends, Carolina and Virgilio Lazzari, the famous contralto and basso of the organization. They started playing some of their own Recreations on the New Edison. As the strains of Marechiale, the delightful Neapolitan street song soared through the room the distinguished tenor joined in, as pictured above, singing in unison with his own Recreation.

"Bravo!" shouted Virgilio Lazzari. "A duet. I swear you can't tell the two apart. I'll try to."

He shut his eyes. Gradually Ciccolini sang more softly. Finally he ceased.

"Why don't you stop?" inquired the listener a moment later, "so that I can tell the difference?"

Ciccolini and Signorina Lazzari burst into laughter. Lazzari, the great basso, with ears attuned to the subtlest variations of the human voice; even he had been unable to say when it was Ciccolini he heard and when his Recreation.

Edison tone tests in which the artist sang in direct comparison with his own Recreations have been held before audiences totalling more than two million people. More than thirty great stars, both vocalists and instrumentalists, have conducted them; more than five hundred newspapers critics have reported them favorably. You may read their verdicts in the booklet "What the Critics Say." Out of this vast throng not one person has been found who could distinguish artist from instrument.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.
Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.
Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.
No gripping is the "key-note" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.
If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.
Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

NEW TREATMENT THAT KNOCKS RHEUMATISM

75c BOX FREE TO ANY SUFFERER
Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.
The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."
F. H. Delano, Wood Bldg., Syracuse, N. Y. I can send only one Free Package to an address. 1016 B

A half dozen cases of what appears to be smallpox in a light form were reported by the health authorities at Burlington Junction this week.

Dr. Larrabee of Barnard, had a log sawed at the saw mill this week that seems to have broken all records in lumber production from this part of the country. The log was ten feet long and made 673 feet of lumber when sawed out.—Barnard Bulletin.

The people of Clearmont are to meet in mass meeting tonight to discuss the proposition of buying a tract of ground for park purposes.

Three Good Sales.

The public sales of C. W. Barrett, which was held February 22, and Marvin E. Keiffer held March 8 were two of the good sales of the season.

Both sales were very well attended and the prices paid for the property were, for the most part, very satisfactory to those disposing of the property.

At the Barrett sale gills brought \$34 per ton, oats straw \$20 per ton,

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination of the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache, or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, hot water before meals, and obtain Anuric tablets, double strength, for 60 cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anuric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

\$34 per ton, oats straw \$20 per ton, and a cow and calf brought \$161.

At the Keiffer sale small shoats sold around 25 cents per pound, one mare brought \$210 and a Jersey cow went under the hammer at \$115 and most of the rest of the stuff offered brought more than the estimates made before the day of the sale.

The George Porter sale held yesterday was very successful. Cattle especially went high, calves weighing around 500, bringing \$64 per head and one cow sold for \$132.50.—Skidmore News.

Thomas McGarry of Clyde, spent the day in Maryville on business.

N. I. Staples refused an offer of \$500 for one of his fine Poland-China sows last week. He has some of the best in his herd that can be found any place.—Burlington Junction Post.
